Apr 22, 2010 I was I have Problem that when I'm start of openkore I'm getting an error message, while if I'm start by create.exe without parameters on 2.3 dll I can't get an error! A: The netredirect.dll is obfuscated and you need to properly extract it first. The DLL's are not distributed with the Steam Installer, so there are two options to get it: Contact the GitHub and get the whole project on GitHub and extract the file manually. Find the DLL on the Internet, extract it, save it somewhere and add it to your SteamApps\Common\openkore directory. It should look like something like this: Q: How does Link Spellwork interact with the Cleric's Heil and Light cantrips? Possible Duplicate: Does a cleric gain more abilities from their Wisdom score after level 7? I have a cleric who is level 5. He has Link Spellwork, and Heil, and Light. My question is can Link Spellwork take place of either Heil or Light? Link Spellwork states "Whenever a target you can see takes damage, you can use your reaction to force it to make a Constitution saving throw against your spell save DC. If it fails, you use your reaction to use one of your healing or light cantrips. A: No, Link Spellwork doesn't stack with Heil and Light A rogue can use either feature of Heil and Light, linked or not, on the same target. Link Spellwork only allows you to use your reaction to heal or light a target for a cantrip. It does not allow you to heal or light the same target for two different cantrips. Link Spellwork can only be used once per casting of Heil and Light. Thus a 5th level cleric can only use it on one target per casting of Heil and Light, and cannot use Link Spellwork to heal more than Heil and Light provide. The 5th level cleric can, however, use their reaction to heal for a cantrip from the same class as Heil and Light, or a different class. A: Link Spellwork is pretty much useless. Link Spellwork only allows you to heal or light a target using 1 Healing Word or 1 Light Word, even if you have multiple cant
